

SOP-001: Equipment Cleaning Procedure

1. Purpose

This SOP describes the standard procedure for cleaning laboratory equipment after use. All personnel must follow this procedure.

2. Scope

This procedure applies to all laboratory equipment used in the chemistry and biology departments.

3. Procedure Steps

Step 1: Disconnect the equipment from power sources.

Step 2: Remove any residual chemicals or samples.

Step 3: Wipe surfaces with approved cleaning solution.

Step 4: Rinse with distilled water.

Step 5: Allow to air dry or use lint-free cloth.

4. Safety Warnings

WARNING: Always wear appropriate PPE including gloves and safety goggles when handling cleaning chemicals.
